It's time to get the facts!

HAVE YOU HEARD....???

#1

Approximately 3 in 1,000 babies are born with permanent hearing loss, making hearing loss one of the most common birth defects in America. (Ross et al., 2008)

#2

Most children with hearing loss who receive appropriate services from trained staff are able to progress at age-appropriate rates. (Geers et al., 2009)

#3

95% of newborns are screened for hearing loss. (White, 2003; Mitchell & Karchmer, 2004)

#4

Left undetected, mild or unilateral hearing loss can result in delayed speech and language acquisition, social-emotional or behavioral problems, and lags in academic achievement. (Yoshinaga-Itano et al., 1998; Bess, 1985; Bess et al., 1988)

Now you know the facts. Don't wait, if you think you or your child may have a hearing loss, contact your local
Speech Pathologist or
Audiologist today!
